Dear Mrs. Dunlop:

Re: Cornwall Public Inquiry / Witness Fees and Travelling Expenses as per the Interprovincial Summonses Act

In accordance with the provisions of the *Interprovincial Summonses Act*, R.S.O. 1990, c. I. 12, the Commission is presenting you with this valid travel warrant. Upon contacting Lise Kosloski, Manager of Finance and Operations at 613-938-2705, the Commission will arrange and pay for your transportation by airline between your place of residence and the Cornwall Public Inquiry. If any of the materials which you are required to produce are of such weight or size as to attract extra fares or charges, that amount will also be paid by the Commission.

The Commission will arrange and pay for your hotel accommodations in the Cornwall area, upon contacting Lise Kosloski, Manager of Finance and Operations at 613-938-2705.

The cost of meals for your total journey will be reimbursed upon presentation of receipts according to the following guidelines:

Breakfast	\$8.75/day
Lunch	\$11.25/day
Dinner	\$20.00/day

In addition, the Commission will provide you with \$50 for each day as an attendance fee. These amounts will be deducted from the cheque accompanying this letter.

Please be advised that the Commission will pay for a support person for you, which would include their travel, hotel and meal costs. This can be any person of your choosing. Again, please contact Ms. Kosloski and she will make the necessary arrangements.

As you may be aware, there is counselling available for you and your family through our counselling service. We will provide you with information about this service upon request.

I would like to remind you of my offer to make a request that the Commissioner make a recommendation to the Attorney General that you be represented at the Inquiry by a lawyer of your choice, who would be paid by the government at the same rates and terms as Counsel for the

publicly funded parties. Please let me know at your earliest convenience if this is something you would be interested in pursuing.

I trust this is satisfactory,
