Dear Bishop O'Brien:

It was great seeing you today, yes, even as always! Thanks again for your support, which I feel, and for your understanding. They are very much appreciated.

As things develop, I will keep you informed. It will probably be a while before there is any medical prognosis. Due to time required for the MRI and neurological assessment. But it will come and you shall be informed.

Needless to say (!) I was shocked somewhat at the Henry Sims article. So shocked to fully realize & hear the words as you read them. Would you please send me a complete copy of that article "Sims, the godless". I would appreciate it; it'll give me a sense of what people believe about me - although it may be ill perceived!

Thank you again.

A happy(?) Christ to you -

Peace,

Love Pat.

P.S. Please excuse this paper; I'm trying to use up all of my school supplies! Love
